No.1 STAINLESS KITCHEN

SYSTEM KITCHEN 50th

For over 75 years, the Cleanup brand has established itself as a leading company specializing in stainless steel kitchens and sinks with innovative designs. Guided by a mission to bring smiles to every household,

Cleanup emphasizes its unique approach to stainless steel kitchens that seamlessly integrate innovation and distinctive technology. The company strives to ensure that every kitchen and sink produced in its factories is impeccably designed, combining functionality with enduring beauty and durability.

With this mission and corporate policy, Cleanup Corporation has risen to become one of Japan's largest kitchen manufacturers. The company achieves annual sales of approximately 55 billion baht and has consistently ranked as the top choice in consumers' hearts for over 70 years.

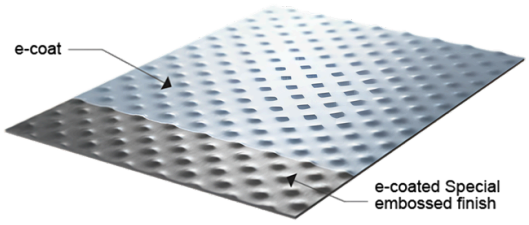
INNOVATIVE SINK

E-coat Technology

Double Guard Against Scratches And Soiling keep your kitchen in ideal shape, always a grade cleaner.

Embossed Finishing

The work surfaces you use most have a special embossed finish that reduces the effective area of countertop and sink contact with dishes and utensils. Scratches are less likely to form and less noticeable when they do.



Silent Technology

Vibration control structure is used not only at the bottom back of the sink but also the sides.
